Classified vehicle listings in the United States are intended for dealerships that use a bulk listing tool. Tip You can select Best Offer on your Classified Ad listing if you're willing to listen to offers from potential buyers.

### Rules for listing Classified Ads

Our rules for listing a Classified Ad on eBay differ from other selling formats on eBay. For a Classified Ad, we'll send you the contact information of any interested buyers. You are not allowed to share this information with third parties or use it for any reason other than to get in touch about the item you're selling—please make sure you're familiar with the [User Privacy Notice](https://www.ebay.com/help/policies/member-behaviour-policies/user-privacy-notice-privacy-policy?id=4260). Sellers who don't take care of buyers' information could have their buying and selling privileges limited or their eBay account suspended. Remember, since Classified Ads are posted on eBay, but the transaction takes place off eBay, you don't have access to services such as feedback, and you can't cancel the order if a buyer doesn't pay.
