You can save from the listing page by clicking Save this Seller (or the heart icon) located on the right in Seller information; the seller's profile page by clicking on the seller's username, and then clicking Save (or the heart icon);

the eBay homepage by scrolling to the Recommended Sellers section and clicking the blue Save button next to the seller's user ID; and

the Leave Feedback flow after leaving positive feedback by clicking the blue Save button on the Thanks for your feedback page.

- After you've saved a seller, you'll see a confirmation message along with a reminder that you'll see updates in your eBay feed, that the sellers you've saved may be "public",
