

## Setting up your shipping options

There are many ways to send items to your buyers. By offering more than one delivery option, you'll be able to attract different types of buyers.

Are you looking to exclude shipping locations or manage who can buy from you?

See our article on <https://www.ebay.com/help/selling/listings/creating-managing-listings/setting-buyer-requirements?id=4152>

setting buyer requirements

You can pick which shipping methods you want to offer your buyers when creating your listing. Depending on whether you're using the quick listing tool or advanced listing tool, you'll do this in slightly different ways:

Setting your delivery options using the quick listing tool

- On the listing page, scroll down to the Shipping section.
- Choose whether you want to:

- Ship your item: You select a fixed cost, or we calculate the cost for you based on package weight and dimensions. You can pay the shipping cost yourself.
- Offer local pickup: Buyers pick up the item from your home or another site of your choosing.
- Offer both options.

- If you choose to ship your item: In Ship your item, enter a fixed cost or the package weight and dimensions so we can calculate the cost.
- If you're not happy with the recommended shipping service, select Change shipping service to choose another option.
- Select the calculated rate, or select the option to charge a fixed amount, then enter the amount. You can also choose to offer free shipping and pay it yourself.

- If you offer local pickup, enter the ZIP code for your item location.

Setting your shipping options using the advanced listing tool

On the listing page, scroll down to the Shipping section.

From the Shipping method dropdown, select one of the following options:

- Standard

shipping: Small to medium items

- Freight: Oversized items
- Local pickup only: Sell to buyers near you

If you choose Standard shipping, open the Cost type dropdown under Domestic shipping, and select either:

- Flat rate: Same cost regardless of buyer location
- Calculated: Cost varies based on buyer location

If you choose Flat rate:

- If a Primary service is not already pre-selected, select Add primary service. (You can select the three dot menu to change the service.)
- Enter your shipping costs under Buyer pays, or select Offer Free shipping under Primary Service.
- If you choose Calculated:

- Add Package weight and Package dimensions. These details are required as they are used to calculate your shipping costs.
- If Primary service is not pre-selected, select Add primary service. (You can select the three dot menu to change the service.)
- If you want to cover the costs of shipping, select Offer Free shipping under Primary Service.

If you're eligible for [eBay International Shipping](https://www.ebay.com/help/selling/shipping-items/setting-shipping-options/ebay-international-shipping-program?id=5348), it will become your default international shipping option. We'll automatically add eBay International Shipping to your current listings and manage all overseas shipping, customs and returns. If you would like to manage international shipping yourself, select See shipping options at the top of the Shipping section, turn on Other shipping services then select Add other shipping services. From the See Shipping options menu you can also turn on and off the following:

- Autofill shipping details (Allow Package weight/dimensions and carrier to be autofilled based on similar or matching listings)
- Irregular package (Pack your items in non-rectangular boxes as needed. Additional shipping charges may apply)
- Local pickup (If the item you're selling is large or difficult to ship, the buyer can collect it in person)
- Handling cost (Add an additional charge to cover packing and materials)
- Excluded locations (Set specific

locations that you don't want to ship to)</li></ul> TipTo offer free shipping using the advanced listing tool, ensure you have a primary service selected under Domestic shipping. Once a shipping service is selected you will see the option to Offer Free shipping under Primary Service.You can also set up and manage your shipping options using

<a href="https://www.ebay.com/help/selling/business-policies/business-policies?id=4212">business policies</a>. For more control over setting shipping costs by region, you can use <a href="https://www.ebay.com/help/selling/shipping-items/using-shipping-rate-tables?id=5459">shipping rate tables</a>.</h2 id="section1"><a id="integrated"

FreightTrackable Freight Services&lt;/tbody>&nbsp;TipWe recommend you upload tracking to

eBay within your stated handling time. Buyers are more confident their orders will arrive when they  
receive regular shipping status updates, and are less likely to file &quot;Item not received&quot;  
claims.Further
