

Maximum shipping costs

<h2>You can offer multiple shipping options, such as expedited, overnight, or flat rate freight, including options that are more expensive than the maximum shipping cost. However, you'll need to offer at least one affordable shipping option to buyers that is within the limit; it must include all shipping costs, such as handling and required insurance. You won't be able to list your item if you don't include at least one shipping cost that is less than or equal to the maximum cost.</h2>

id="section1">How maximum shipping costs are determined</h2>Maximum shipping costs are based on what sellers are charging for shipping (according to recent transaction data) and what buyers say they consider reasonable. When buyers think that shipping costs on eBay are too high, they may make their purchases somewhere else. Having a maximum shipping cost helps buyers find items with reasonable shipping and can help you sell more items.</h3>
