We take our role in community safety very seriously, and as well as in accordance with government regulations and international laws, we prohibit the sale of certain weapons on eBay.

<h2><h2>GUIDE.TALKING_POINTS

Airsoft Airsoft weapons are replica firearms that shoot non-metallic (usually plastic) rounds. These items can generally be sold on eBay.com (the U.S. site) as long as the buyer, the seller, and the item are all located in the United States. However, the item must follow our policy and include federally required markings. Item not for an assault weapon Many replica weapons are made to be an exact copy of the original. Consequently, you can't list items that are marketed as fitting an assault weapon even if they are only for a replica because we have no way to tell if the item is being purchased for a real weapon or a replica weapon. Why was I blocked from buying an air gun on eBay? Some states and cities have put in place laws and regulations that restrict the sale of air guns so weve added filters to block buyers from those states or cities from buying them on our site. </h2>
