

Unified consequences path - Trust policies

[GUIDE.SUMMARY Trust Policies: LP, PI, Inf, VeRO, Selling Policy, Member Behavior, Abusive Buyer, Drop Shipping, Performance Gaming, Bad Actor](#)
Use these consequence guidelines to help determine what action should be taken. The severity levels are explained below the consequences themselves.
There may be times when we bypass these consequences to remove sellers from the site immediately. If sellers are engaging in behaviors of bad actors or repeat violators, we may suspend or indefinitely restrict them, and they won't generally be eligible for appeals. Please see MAC notes and related policies for specifics.
