GUIDE.TALKING_POINTS Who offers the financing for eBay Seller Capital? eBay Seller Capital now partners with several lenders to offer lending options to sellers, enabling them to grow their business with us.

When a seller is rejected, the lender simply notifies them that the company can't offer them business funding at the moment with an Adverse Action Notice within 30 days. When sellers ask eBay questions about this, we refer them to the lender.

How do I repay? Upon funding, your monthly payments will be set up to be automatically debited from the bank account where the Funding Circle funds were deposited.

If you wish to set up automatic monthly payments from a different bank account, or pay by check or wire transfer, please contact Funding Circle at loanquestions@fundingcircle.com or +1(866) 679-7966 so they can help you make the change.

Can I have more than one Seller Capital loan at a time? You can receive more funds even if there is an outstanding balance on your current business loan. However, you may only have one Seller Capital loan at a time.

Will this impact my eBay sales? eBay Seller Capital will not impact your eBay sales. eBay Seller Capital was created to help you grow your business and increase your earning potential.

Do you have a sales-based loan repayment option? Not yet, although we are working to provide a sales-based repayment option in future. What happens if my

company goes bankrupt? Please contact your lender at:
 Funding Circle +1(866) 679-7966. What if my name or contact details change? Please let us and your lender know about any change of name or contact details. All repayments will be temporarily paused while the changes are being processed by eBay.. </h2>
