

## Pesticides policy

Pesticides can pose significant health and safety risks and are regulated by the U.S. government, so we have specific rules about selling them on eBay.

This policy reflects our commitment to the safety of our members by strictly adhering to government regulations for the sale and transportation of dangerous goods.

What is the policy? Pesticide products are not allowed on eBay if they are:

- Unregistered, misbranded or restricted-use pesticides under U.S. Environmental Protection Agency (EPA) regulations

- Suspended, canceled or banned by federal or state government agencies

- Located outside the U.S.

- Unbranded or in previously opened packaging

- Ineligible for shipment through standard shipping providers

Pesticide products must include an EPA Registration Number in the eBay Item Specific field at the time of listing

You can find this number on the product package

The number will follow the phrase "EPA Registration No." or "EPA Reg. No."

Please enter this number exactly as it appears with all dashes and without spaces or punctuation

For additional information, see the EPA's information on pesticide labels
