New bulk listing tool experience (BLING)

<h2&gt;GUIDE.SUMMARY What &lt;ul&gt; &lt;li&gt;Sellers can now revise and relist in bulk with the new bulk listing tool experience (BLING)</li&gt; &lt;li&gt;BLING is the replacement for the Bulk Edit and Relist tool (BEAR)</li&gt; &lt;/ul&gt; &lt;/h2&gt;&lt;h2&gt;GUIDE.TALKING POINTS What is the new bulk listing tool? <ul&gt; &lt;li&gt;The new bulk listing tool experience allows sellers to edit and relist items in bulk. <ul&gt; &lt;li&gt;Before the changes are submitted, sellers can address errors, review fees and preview listings.</li&gt; &lt;/li&gt; &lt;/li&gt; &lt;li&gt;The new bulk listing tool experience can also create copies of listings</li&gt; &lt;li&gt;The new bulk listing tool doesn't support the Export to file feature anymore. <ul&gt; &lt;li&gt;To download active and unsold listings to a CSV file, Go to Seller Hub > Reports > Downloads to export your active or unsold listings to file</li&gt; &lt;/ul&gt; &lt;/li&gt; &lt;/ul&gt; What are the benefits? &lt;ul&gt; &lt;li&gt;You can quickly identify active listings that need to be revised in order to comply with an eBay policy change (such as mandatory Item Condition).</li&gt; &lt;li&gt;You can keep your listings up to date and competitive (e.g., identifying listings to place on sale, add Promoted Listings or Volume pricing to listings).</li&gt; &lt;li&gt;You can revise listings, address errors, review fees and preview listings before you submit changes through the bulk edit, bulk relist or bulk sell similar flows.</li&gt; <li&gt;Bulk edit and relist supports editing up to 2000 listings at a time in Seller Hub.&lt;/li&gt; </ul&gt; When are you able to edit the [insert part of listing]? Why isn't the tool letting you revise [insert part of listing]? <ul&gt; &lt;li&gt;Not all sections of a listing can be edited at all times.</li&qt; <li&gt;See <a

href="/cskb.vip.ebay.com/cskbapp/art?page=content&id=GUIDE1056">Revising a listing</a&gt; for more information.&lt;/li&gt; &lt;/ul&gt; Why isn't the tool letting you remove the second Store category? &lt;ul&gt; &lt;li&gt;Although you can change the second Store category using the tool, you can't remove the second Store category. To remove the second Store category, you need to end the listing and create it again.&lt;/li&gt; &lt;/ul&gt; Why isn't the tool letting you remove a shipping option? &lt;ul&gt; &lt;li&gt;Although you can change the shipping carrier or the

shipping cost, you can't remove a shipping option once a purchase has been made.</li&gt; <li&gt;For example, if you created a listing which offered both domestic and international shipping, you would not be able remove the international shipping option once a purchase had been made.</li&gt; &lt;li&gt;To remove international shipping, you need to end the listing and create it again.</li&gt; &lt;/ul&gt; The "Find and replace" feature is not finding your text. &lt;ul&gt; <li&gt;Find and replace searches within the HTML tab of your description, so you need to include all of the HTML associated with the text that you want to replace. <ul&gt; &lt;li&gt;An easy way to do this is to copy your HTML from the HTML tab of your descriptions.</li&gt; &lt;/ul&gt; &lt;/li&gt; <li&gt;Because Find and replace has to be a precise match, check that your spacing, font and special characters are the same. If they are not the same, it will be skipped.</li&gt; &lt;li&gt;You can try to break your search down into separate sections. This can make it easier to search.</li&gt; &lt;/ul&gt; &nbsp; Change all your listings to conform to a recent policy change. <ul&gt; &lt;li&gt;The tool is extremely useful when eBay's policies change.&lt;/li&gt; &lt;li&gt;If you need to change all of your listings to meet new requirements, for example for shipping or returns preferences, you can edit your business policies in the tool and apply them to all of your active listings.</li&gt; &lt;/ul&gt; What does this error mean? "The Item Specifics of the above item have been updated. You may want to review the listing before relisting or remove it from the list of items to be edited / relisted." &lt:ul> &lt:li>This error message means that eBay has recently updated the Item Specifics for that item on our site.</li&gt; &lt;li&gt;In order to get the best exposure for the item, you will need to update this item manually.</li&gt; &lt;li&gt;The bulk editor is not able to handle this item until the Item Specifics are updated.&lt:/li&gt: &lt:li&gt:To revise your item, please go into the listing and click Revise your item.</li&gt; &lt;li&gt;You will need to update the Item Specifics here, and then you will be able to edit the additional information that you would like to change.</li&gt; &lt;/ul&gt; Why did you change the tool? I was used to it and now I need to learn how to use it? <ul&gt; &lt;li&gt;We created this newer version of the bulk editing tool based on improved technology and on sellers feedback, to offer an improved bulk listing experience to eBay

sellers.</li&at; &lt:li&at;The new version is quicker and stable to serve your bulk editing needs and to publish and modify your listings.</li&gt; &lt;li&gt;Latest eBay features for sellers will also only be available on the new version.</li&gt; &lt;/ul&gt; Can I go back to the previous version? &lt;ul&gt; <li&gt;Starting in February 2022, sellers will begin to be automatically opted into the new bulk listing tool experience and will still have the option to switch back to the classic view of the bulk listing tool experience.</li&gt; &lt;li&gt;Starting in May 2022, sellers will begin to be unable to of bulk opt-out the new listing tool experience.</li&gt; </ul&gt; </h2&gt;&lt;h2&gt;GUIDE.DETAILED INFORMATION New bulk listing tool features overview <ul&gt; &lt;li&gt;View listings at a glance with photo thumbnails&lt;/li&gt; <li&gt;Edit in line, and write your own text&lt;/li&gt; &lt;li&gt;Click and select options &lt;ul&gt; <li&gt;Listing type: &lt;ul&gt; &lt;li&gt;Buy it Now&lt;/li&gt; &lt;li&gt;Auction&lt;/li&gt; &lt;/ul&gt; </li&gt; &lt;li&gt;Listing duration&lt;/li&gt; &lt;li&gt;Handling time&lt;/li&gt; &lt;/ul&gt; &lt;/li&gt; <li&gt;Click and edit on a panel for each item individually &lt;ul&gt; &lt;li&gt;Item photos&lt;/li&gt; <li&gt;ltem condition (New, Used, Refurbished)&lt;/li&gt; &lt;li&gt;Offers&lt;/li&gt; &lt;li&gt;Item Specifics</li&qt; <li&gt;Start time</li&gt; <li&gt;ltem specific</li&qt; <li&gt;Category&lt;/li&gt; <li&gt;Store category</li&gt; <li&gt;ltem description&lt:/li&at: </ul&gt; &lt;/li&gt; &lt;li&gt;Bulk edit price by applying pricing rules for Buy it Now listings &lt;ul&gt; <li&qt;Increase or decrease price across multiple listings by applying a total percentage or dollar amount</li&gt; &lt;li&gt;Set minimum pricing across multiple listings either by a percentage or by a to ensure that you dont price below the threshold you specify</li&gt; dollar amount &lt:li&gt:Overwrite pricing to the same value when applying Change to across listings by a specific dollar amount</li&gt; &lt;/ul&gt; &lt;/li&gt; &lt;li&gt;Edit by bulk panels &lt;ul&gt; &lt;li&gt;The updated bulk listing experience allows you to bulk edit the following on your listings <ul&gt; <li&gt;Start time&lt;/li&gt; &lt;li&gt;Auto Relist&lt;/li&gt; &lt;li&gt;Domestic and international shipping</li&gt; &lt;li&gt;Volume Pricing&lt;/li&gt; &lt;li&gt;Promoted Listing&lt;/li&gt; &lt;li&gt;Title, subtitle, description</li&gt; <li&gt;Custom label</li&qt; <li&gt;Format and and
