See the table at the top of this guide for dates for each category. When will listings need to be created and ready to switch over? We suggest creating the listings in Seller Refurbished by the date in the table at the top of this guide. The gated condition will be available. We will monitor new Seller Refurbished listings prior to migration to ensure compliance with program requirements. Why did you end my listings? Listings that included a custom attribute for item condition and/or grade that was no longer available were ended. <em&gt;The seller was emailed multiple times and advised that if the listing was not updated we would end the listing.</em&gt; They may relist if they remove the custom attribute and use eBays item condition instead. Is this applicable to all items in the Seller Refurbished categories? No, only the SKUs migrated onto Seller Refurbished. Will the grading be published to customers so they know how many scratches etc. to expect? Please include the grading condition specific to the SKU in the item description. We

will also have a buyer facing landing page with the grading condition info. If a seller has failed to meet the program requirements and thresholds upon launch, what will happen to them? Would they be denied entry into the program? This will be done case by case, and depending on what the rate is at the time of launch. The goal for these thresholds is to help our sellers operate in a healthy status, and not to have them removed from the program. We will do what we can to support our sellers with higher than allowed rates. If not fixed through coaching, we will refer to the strike system. When 3 strikes have reached, sellers will go into the probation period which limits them from listing under the gated SR condition. The duration of the probation is also case by case. How will the program be marketed? Will the listings just be mixed in alongside used, open box, certified refurbished etc? Very similar to the certified refurbished program launched in 2020. We will be creating a buyer landing page to educate buyers on the new program, benefits and overall purpose. Sellers cannot offer any Verizon locked products, is that correct? We are a national Verizon device provider, and most SKUs will not be applicable. Locked devices will be allowed under SR listings. We are finalizing the detailed strategy for locked phones under SR at the moment and will update sellers accordingly. Listing titles, descriptions and specifics will need to clearly outline if the device is locked, and under which couriers. I am a seller in the eBay Refurbished program and I am blocked from creating a listing. Why? Ask the seller if they can share the error message they are seeing when they try to create a listing. See the Error codes section below for an explanation. Sellers who aren't in the program How do I change my listings? If you use a third-party tool to manage your listings on eBay, we recommend you work with your third-party partner to update your existing listings or create new ones. If you use eBay listing tools, we recommend the following approach: <ol&gt; &lt;li&gt;Create a new listing for each condition variation (Grade B, Grade C, etc.) in the Used item condition. </li&gt; &lt;li&gt;ldentify the condition variation in your listing title and item description. Example of a strong title: Apple iPhone 11 Pro 256GB Midnight Green Carrier Unlocked Grade B.</li&gt; &lt;/ol&gt; See the Other Resources section below for links to articles about creating great listings. Why was I not included in the

program? The program was limited to a select group of sellers. We plan to expand the program to more sellers and categories very soon. In the meantime, you can apply to join the Seller Refurbished program by filling out <a our href="https://www.ebay.com/srv/survey/a/selling.sellerrefurbish.us">application form&lt:/a&at: How much does it cost to join the program? Are there extra fees? No, there is no cost to join the program and there are no extra fees if you participate in the program. What happens after I've filled out the application form? After you've filled out the application form, we'll assess your details to see if you are a good fit for the program. You don't need to do anything after filling in the application form. We'll be in touch by email to let you know if you meet the initial screening criteria for the program. You can expect to hear back from us within 30 days. <b&gt;Internal Information&lt;/b&gt; <ul&gt; &lt;li&gt;Sellers will receive an email accepting or declining their interest in the program. If they're accepted, they'll be asked to provide some extra information (business name, address, categories they list in) and to sign a non-disclosure agreement. If they're declined, they'll receive an email saying they don't meet the program requirements and to work on improving their metrics.</li&gt; &lt;/ul&gt; Why can't you change the condition to Used instead of ending my listings? We have moved as many listings as possible to Used and only when this has not been successful (for example, if an error occurred) have we ended the listing. Now you have ended my listings, do I lose all my sales history? No, you won't lose your sales history if you edit and relist your items directly from the Unsold folder. </h2&gt;&lt;h2&gt;GUIDE.DETAILED INFORMATION Blocked listings/Error messages in listing flow <ul&gt; &lt;li&gt;As part of the eBay Refurbished program, sellers agree to offer free shipping and free returns</li&gt; &lt;li&gt;From June 2022, if sellers create a Refurbished listing that doesn't offer free shipping and free returns, they'll see an error message during the listing flow</li&gt; &lt;li&gt;Here are the error messages:&lt;/li&gt; </ul&gt; &lt;img alt="Error messages sellers see when creating a non-compliant refurbished listing" src="https://cskb.qa.ebay.com/library/EBAY/1744\_GUIDE/Refurb%20rules%20error%20messages."
